Publication list (all pubs available as pdf files)

14. Lookhart, G. L. Aid to chromatographers — a simple trap to eliminate inlet bubbles in high

61. Branlard, G., Khelifi, D., and Lookhart, G. Note: Identification of some wheat proteins separated by a two-step acid polyacrylamide gel electrophoresis and sodium dodecyl sulfate-

74. Lookhart, G. L. and Peterson, D. M. Oat varietal identification by HPLC, pp. 184-189. In Kruger, J. E. and Bietz, J. A. (eds.) HPLC of

Identification by high-performance capillary electrophoresis of wheat lines containing the 1AL.1RS and the 1BL.1RS translocations. Cereal Chem. 73:547-550. 1996.

107. Anjum, F. M., Lookhart, G. L., Walker, C. E. High molecular weight glutenin subunit composition of Pakistani hard white spring wheats grown at three locations for two years and its relationship

119. Bean, S.R. and Lookhart, George L. Recent Developments in High-Performance Capillary
Electrophoresis of Cereal Proteins. 

Students
As co-chair of MS student Rhonda Lyne Dept of Grain Science and Industry

**Teaching** -- Retired so now on 100% research Protein characterization in cereals. Research methodology.
