

# STAKEHOLDER NEWS

*Instructor Aaron Clanton reviews the results of the previous day's cake baking exercise during an evaluation session with participants from the IGP–KSU Baking Basics Training: Breads, Cakes, and Cookies course.*

## June Features Multiple Baking Courses From Basic to Advanced

IGP hosted a total of seven courses during June. Four of those courses were focused on our baking curriculum and brought 45 participants to the conference center and campus bake labs. For 2025, the baking curriculum was offered in back-to-back courses beginning with IGP–KSU Practical Flour and Dough Testing held June 9–13, with nine participants. The course featured hands-on application of analytical tests used to determine attributes of different flours.

with six participants learning the detailed functions of ingredients, processes, and equipment to improve product formulation and effective troubleshooting techniques.

The final course in the series, IGP–KSU Advanced Baking Training: Breads, was held June 23–27, and had 16 participants who received in-depth training in commercial bread and roll production.

Next was the IGP–KSU Baking Basics: Breads, Cakes, and Cookies course held June 16–18, with 14 participants. This course provided a broad overview of the ingredients and processes needed to make some of the popular baked products in today's markets.

The IGP–KSU Baking Advanced Cake and Cookie Troubleshooting course took place on June 19–20,
