

# Stored-Product Entomology Book

A reference guide by David W. Hagstrum and Bhadriraju Subramanyam

The *Fundamentals of Stored Product Entomology*, written by David W. Hagstrum and Bhadriraju Subramanyam, discusses the basics of stored-product pest management.

The book, published in 2006, outlines the planning, implementation, and evaluation of an effective pest-management program. It is based on the review of an extensive database of references and many years of research on stored-product insect problems.

The concepts presented are timely given recent regulatory changes, consumers' concern about pesticide residues in food, and food companies embracing integrated pest management (IPM) and alternative approaches for pest management.

Eight pest management options are thoroughly described in the book, along with information on basic operating principles and background information.

#### About the Authors

• Dr. David W. Hagstrum retired June 1, 2001. He was a research entomologist for the U.S. Department of Agriculture and an adjunct professor at Kansas State University (KSU), Manhattan since 1983.

He received his Bachelor of Arts, biological chemistry from California Western University, San Diego in 1965. Hagstrum obtained his doctorate in entomology from the University of California, Riverside.

During his career, his research focused on stored-product insect ecology.

• Dr. Bhadriraju Subramanyam (Subi) is a professor at KSU. Prior to joining the KSU faculty, he was in the department of entomology at the University of Minnesota, St. Paul.

Subi received his Bachelor of Science from Andhra Pradesh Agricultural University, India in 1981.

Subi obtained his Master of Science, entomology from the University of Minnesota in 1984, and his doctorate of ento-

mology from the same university in 1988.

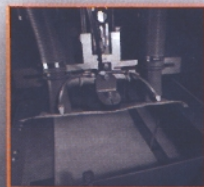

Subi's research focuses on the alternative methods for controlling stored-product insects.

**Order info.** To order the 323-page book, contact AACC International, St. Paul, MN, at 800-328-7560, or [aacc@scisoc.org](mailto:aacc@scisoc.org). The book retails for \$139.

## REVOLUTIONARY BAGGING TECHNOLOGY

### PTK-1700 OPEN-MOUTH BAGGER

- Handle **WOVEN PP**, plastic, and all paper bags from **20 to 110 lbs**
- Single spout bagger: up to **25 BPM**
- **High hygienic** standards achieved by dust-free bagging and total bag control

WEIGHING • BAGGING • PALLETIZING • LOAD SECURING
