

**Kansas State University**  
**GRAIN SCIENCE & INDUSTRY**

Manhattan, Kansas, USA

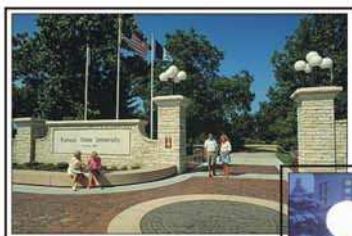

**Choose a Career in Grain Science**

- Our graduates are always in demand and among the highest paid.
- Undergraduate (Bachelor of Science) degrees in Bakery Science and Management (minors in Cereal Chemistry and Production Management), Feed Science and Management, and Milling Science and Management.
- Graduate (Masters of Science and Ph.D.) degrees in Grain Science and Industry.
- Contact Dr. Richard Hahn (rhahn@ksu.edu) (Department Head and Professor) for more information on degree programs.

**Pest management training program**

- Sampling/trapping stored-product insects
- Management of stored-product insect pests with pesticide alternatives or reduced-risk pesticides
- Development and evaluation of Integrated Pest Management (IPM) programs for insects associated with stored grain and processed food products
- Contact Dr. Bhadriraju Subramanyam (sbhadrir@ksu.edu) (Professor, Grain Science and Industry) for information on pest management training programs tailored to your needs.

**Training programs for Indian industry**

- Training programs in the areas of pest management, extrusion processing and product development, milling, baking, and feed manufacturing. These training programs are 4-6 weeks in length, and the duration and specific topics are tailored for individuals or groups of participants from industry. Costs depend on number of participants and program duration.

**Extrusion processing training program**

- State-of-the-art processing plant
- Pilot-scale single and twin screw extruders and dryer
- Product development - breakfast cereal, snack products and pasta
- Product development - pet food and aquatic feed
- Instrumental testing of raw material and finished product quality
- Contact Dr. Sajid Alavi (salavi@ksu.edu) (Assistant Professor, Grain Science and Industry) for information on Extrusion Processing training programs tailored to your needs.
